Anyone who asks for this volume, to read, collate, or copy from it, and who appropriates it to himself or herself, or cuts anything out of it, should realize that (s)he will have to give answer before God's awesome tribunal as if (s)he had robbed a sanctuary. Let such a person be held anathema and receive no forgiveness until the book is returned. So be it, Amen! And anyone who removes these anathemas, digitally or otherwise, shall himself receive them in double.

Sabiduría de los antiguos Asirios y Babilonios". El Quinto "Los Cananeos y los Fenicios", dos grandes ramas de los Asirios. El Sexto "El Idioma Arameo y sus dos ramas: oriental y occidental". En este capítulo, como en otros, cita ejemplos de la escritura, desde el cuneiforme hasta las variaciones de la escritura aramea de los primeros siglos de Cristo. El Septimo Capítulo que trata sobre "El Idioma Siriano" habla sobre el tema dando una suficiente explicación: como fue el desarrollo del idioma; sus variaciones, sus reformas, sus nombres, de Shumir y Acad, a Caldeo-Asirio; Ashur, origen de los títulos conocidos hoy: Sirios, Siriacos, Sirian, Sirianos, Asirianos y Asirios, éste último el más legítimo.

Los amantes de los estudios sobre la lengua arameo - asiria, de la nueva emancipación que se nota en las últimas décadas con un fervor extraordinario, al consultar las páginas de esta valiosa obra, sabrán apreciar su valor y agradecer a su autor, señor Abrohóm Gabriel Zsaumo, su tenaz esfuerzo para presentarla completa y eficaz.

Y lo que es digno de mencionar, que esta obra fue impresa en la única imprenta en idioma arameo en la República Argentina y toda América del Sud.

La mejor lectura, que es necesaria y debe leer el hombre, el buen lector, es aquella que trata y analiza la historia de sus antepasados, enseñándole el ciclo evolutivo del desarrollo y progreso de sus ciencias y su civilización.

En los últimos siglos, desde la edad media, han caído en decadencia los conocimientos en nuestros pueblos de los países orientales: Mesopotamia, Irak, Siria, Líbano, Palestina y otros. Son muchos los factores que motivaron esa situación. En mayor grado, los avasallamientos de las potencias extranjeras, y los malos gobiernos que se sucedieron hasta hace pocos años.

Fue tan notable el atraso, que hasta fines del siglo pasado, no había en esos países ni siquiera un cinco por ciento de todos sus habitantes, que supieran leer y escribir correctamente.

Muchos de los descendientes de aquella antiquisima y gloriosa civilización de la Mesopotamia, cuna de la civilización universal, ignoraban aquel glorioso pasado; y de que eran los hijos de aquellos grandes hombres fundadores de las culturas que fueron los cimientos de todas las artes y conocimientos del mundo antiguo y moderno.

No nos es fácil en esta breve nota, hablar en detalle suficiente del contenido de esta obra. El autor analiza en forma extensa y ordenada, todos los acontecimientos: reinos, gobiernos, culturas, escrituras, industrias y muchos de los grandes filósofos e intelectuales de la época más remota; cinco mil años antes de Cristo, hasta nuestros tiempos.

El autor ha presentado este valioso trabajo en un Prólogo y siete Capítulos, encabezando la obra una nota de su Eminencia Arzobispo de Merdin, Mesopotamia (Beth Nahrin), Monseñor Yuhanón Dulabani, en la que elogia y recomienda a la nueva creación la lectura de este libro.

El Primer Capítulo se titula "Los Pueblos de la Nación Siriana" El Segundo "Los Babilonios y Los Asirios". El Tercero "El Idioma, la Escritura y la Cultura de Babel y Ashur". El Cuarto "Las Ciencias y
